PROFESSIONAL EXPERIENCE

Full-Stack SaaS Architect

MTK Codex — Remote (Lahore, PK) | Jan 2024 – Present

- Shipped 7 production SaaS platforms across FinTech, AgriTech, EdTech, SportsTech, E-Commerce, AI Security, and Desktop Utility verticals.
- 3 platforms live in production serving 500+ tenants and tracking 50K+ entities with 99.9% uptime.
- Architected multi-tenant data isolation using PostgreSQL RLS, Clerk Organizations, and stacn/tenancy — zero cross-tenant leaks.
- Integrated AI across products: OpenAI GPT multi-language commentary, TensorFlow.js on-device detection, Vercel AI SDK streaming chat.
- Built 200+ API endpoints covering complete business workflows; achieved Lighthouse 95+ across all web platforms.
- Implemented payments: Stripe subscriptions, RevenueCat IAP, and local gateways (JazzCash, EasyPaisa, XPay).

Frontend & Full-Stack Developer

Freelance — Remote | Jun 2022 – Dec 2023

- Delivered 10+ client projects on schedule with 100% satisfaction — e-commerce stores, admin dashboards, and marketing sites.
- Built LaraibCreative luxury fashion e-commerce with JWT auth, Cloudinary media pipeline, and local payment integration.
- Migrated a vanilla React stack to Next.js + TypeScript + Tailwind, cutting page load times by 60%.
- Established reusable component architecture and design-system patterns adopted across subsequent projects.
